DR. J. COLLIS BROWNE'S
(Ex Army Med. Staff)
CHLORODYNE

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. COLLIS BROWNE was undoubtedly the Inventor of CHLORODYNE: that the story of the Defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent Hospital Physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne, that they prescribe it largely, and mean no other than Dr. Browne's.—*The Times*, July 12, 1864.

The Public, therefore, are cautioned against using any other than
DR. J. COLLIS BROWNE'S CHLORODYNE

REMEDIA, USES AND ACTION.

THIS INVALUABLE REMEDY produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while Medical men extol its virtues most extensively using it in great quantities in the following diseases:—

Diseases in which it is found eminently useful—Cholera, Dysentery, Diarrhœa, Colics, Coughs, Asthma, Rheumatism, Neuralgia, Cough, Cramp, Hysteria, &c.

EXTRACTS FROM MEDICAL OPINIONS.

The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport hat he had received information to the effect that he only remedy of any service in Cholera was Chlorodyne.—See *Lancet* Dec. 31, 1864.

From A. Montgomery, Esq., late Inspector of Hospitals, Bombay:—"Chlorodyne is a most valuable remedy in Neuralgia, Asthma and Dysentery. To it I fairly owe my restoration to health after 18 month's severe suffering, and when other remedies had failed."

Dr. Lowe, Medical Missionary in India, reports [Dec. 1865] that nearly every case of Cholera in which Dr. J. Collis Browne's Chlorodyne was administered the patient recovered.

Extract from *Medical Times*, Jun. 12, 1866.—"Chlorodyne is prescribed by scores of orthodox medical practitioners. Of course it would no thus be singularly popular did it not 'supply a want and fill a place.'"

Extract from the General Board of Health London, as to its efficacy in Cholera.—"So strong are we convinced of the immense value of his remedy, that we cannot too forcibly urge the necessity of adopting it in all cases."

Beware of spurious and dangerous compounds sold as CHLORODYNE, from which frequent fatal results have followed.

See leading article, *Pharmaceutical Journa* Aug. 1, 1869, which states that Dr. J. Collis Browne was the Inventor of Chlorodyne; that is always right to use his preparation when Chlorodyne is ordered.

CAUTION.—None genuine without the words "Dr. J. Collis Browne" on the Government stamp. Overwhelming medical testimony accompanies each bott'

A HUNDRED IMITATIONS OF COD-LIVER OIL are being sold everywhere. Thousands of suffering persons are defrauded by this means, and cruelly wronged, and, as a consequence, an invaluable remedy falls into disrepute, by this shameful imp sitions. To guard against the foregoing fraud the most effective means consist in buying the article from reliable dealers reputed beyond suspicion, and verify the article by a close inspection of the wrappers around the bottle, and also observe the name of the firm blown in the glass, without which none is genuine. Lanman and Kemp's Pure White and Black Cod Liver Oil, enjoys an undisputed reputation for its purity throughout the Western Hemisphere, Europe and Australia. Only livers extracted from fresh fish, are used in its preparation, and it can be kept sweet for any length of time in any climate from the Pole to the Equator. Its medicinal efficacy is traceable to its purity, never having been known to fail even in the most acute cases of disease of the lungs, bronchitis, pneumonia, incipient consumption, congestion and consumption of the liver and all lung and throat affections, complicated by scrofula. To effect a cure in the shortest possible time, use one spoonfull of the oil mixed with two of the Pectoral of Anacahuita.

Argentine war steamers Uruguay, Pavon and Anita coming into port; object unknown.

The false shares of Fomento Territorial reach 6000; one party holds 2000 false. Affair causes immense excitement. Genuine shares worth $100. Several holders of false ones expected to suspend payment to-day.

False shares supposed to have been circulated some time back, and made in Europe. Forgery not traced.

Two officers landed from Argentine squadron, and proceeded to Consul Villega's office. Further operations not decided on yet.

Suspicion of territorial fraud rumored against well known party. Real Territorial shares worth 105.

SECOND TELEGRAM.

No transactions on Bolsa to-day.

Argentine squadron still here.

Oriental gunboat Fe leaves to-night for Colonia.

(*Per American Agency:*)
Montevideo, Oct. 1st.
(Morning.)

The gunboat Uruguay and steamers Pavon and Anita appeared off the port this morning, and caused considerable excitement amongst the people.

In the liquidation on the Bolsa yesterday 6,000 forged Fomento shares turned up. It is said that many will be ruined.

3½ p.m.

Entered, Brazilian gunboat Ivahy from Buenos Ayres.

Diana from Barcelona.

Bolsa paralysed: nothing spoken of but the fraud in Fomentos. Nothing decided yet on the subject.

Argentine squadron sailed to attack the Parana, which is said to be off Hornos Island.

A lot of hides 'sin estaques,' sold at 74 despatched, and 18 bales of cuttings at 34 in barracca.

THE SITUATION.

Yesterday morning a telegram from Montevideo announced that the Argentine fleet, composed of the Gunboat Uruguay and the steamers Pavon and Anita, was seen off that port by daybreak. Some of the foreign gunboats are anxious to see the expected fight between the two new Argentine gunboats, which promises to be of much interest to naval men. It is not known when they may meet, as the Parana is supposed to be cruising off the mouth of the River Plate. The Parana and Uruguay are sister boats, equal in every respect, and better suited for fighting purposes than any vessels of the kind in these waters either before or since the days of Admiral Brown.

A battalion of National Guards marched on Wednesday evening either for Flores or Moron, as generally supposed, and passed before the National Government House crying Viva el Gobierno! They marched along Calle Rivadavia, and numbers of persons came to their doors to see them pass in front of the Foreign Club: they were evidently equipped for a march and bivouac.

The *Nacional* says the Government is concentrating all the horses in the Province of Entre Rios, to prevent the possibility of a revolt.

'Personeros' are asking from 15,000 to 25,000$ mje. according to the 'avisos' in the evening papers.

Governor Barros published a decree yesterday that anyone in the National Guard not wishing to serve in the campaign can pay 5,000$ mje. to the Provincial Government, who will provide them a substitute. Or if they put a 'personero' themselves he must serve two years in a regiment of the Line.

Moron is to be the general encampment, according to the *Nacional*, of the National Guards now being put in readiness for the field.

A paper in Montevideo alleges that the Oriental Government has telegraphed to Colonia and other ports not to allow the gunboat Parana to take supplies, and to oblige her at once to leave.

The *Tribuna* and *Nacional* review in an editorial manner the proclamation of General Rivas, but do not publish the document. It is said to be printed on a fly-sheet, to make no reference to President Sarmiento, but to declare emphatically against Dr. Avellaneda as President or Dr. Alsina as Governor, and calls upon all the camp districts to join his party.

Some trouble occurred yesterday on the Bolsa, owing to a picquet of Nat. Guards in quest of deserters making its appearance. The evening paper says there was a moment of tumult, ending in the porter of the establishment obliging the Guards to leave the building.

Telegrams yesterday afternoon from Chivilcoy announce the arrival of Col. Borjes troops in that town, comprising the 3rd cavalry and 2 guns under Major Villegas.

In the absence of steamers a Cooter is expected from Montevideo with the mails. She is an Italian schooner, and if the wind be favorable will arrive before the end of the week.

Col. Pedro Aguero is named Chief of Staff of the National Guard of the city.

Major Villanueva of Las Flores is assembling men near the Salado and reports everything quiet.

The police authorities or some others are said to have discovered over 100 rifles in a room off a back street from the Parque; also uniforms.

Colonel Condarco, so well known for his editorial writings in Rosario, has joined Colonel Nelson to raise troops for the Government.

Gov. Barros on Wednesday presented a bill to the Provincial Legislature for two million hard dollars from the Provincial Bank, by virtue of contract of Dec. 1871.

Congress has passed a vote of 20 million dollars, say 4 millions sterling, for expenses in putting down the revolution.

The *Nacional* says a group of Ministas is reported to be somewhere near Cañuelas.

Dr. Llorente, Secretary of the Municipality, was dismissed from his post yesterday.

The Brazilian mail steamer Jaurú, according to the *Telegrafo Maritimo* was detained on arriving at B. Ayres by the National Government. The Minister had an interview with Dr. Tejedor, and the Jaurú left that evening, escorted by the Brazilian ironclad some distance from port.

The newspaper *Pampa* has re-appeared at Montevideo, under Mr. Paz.

Latest telegrams announce that the Argentine fleet left Montevideo last evening, to engage the gunboat Parana near Hornos island.

Governor Rodriguez of Cordoba issued a proclamation to his Province condemning the revolution now made to prevent Dr. Avellaneda's ascent to power, and says the National Guards will be called out to send a force of four hundred men to support Colonel Roca against General Arredondo.

The *Tribuna* says the Italian Minister requested the Government to allow the City Improvements to be resumed, but that such request could not safely be acceded to. Nevertheless, we see that the works have been resumed by permission of Government.

So many people are applying at the Policia for 'passes' to go in or out of town that the sentinels are hardly able to keep the door free. They ought to put on extra clerks for the purpose.

His Excellency Dr. Irigoyen, Peruvian Minister, went aboard the Pampa yesterday and hoisted his flag at the main, en route for Montevideo, where he will tranship to the next Pacific mail-steamer bound for the West Coast. The Pampa carries the Argentine flag, although the Company is an Italian one, with several shareholders in Buenos Ayres.

The *Tribuna* says the Government has taken possession of a thousand goods waggons on the Southern Railway. All goods traffic on Northern and Southern lines is stopped by order of Government.

Mr. Mitre-Vedia, Consul General for Uruguay, publishes a manifesto to the Oriental residents in this Republic, cautioning them from taking any part in the present quarrel, either with Guelphs or Ghibellines.

Several English families have come in from San José de Flores; a few still remain. An encampment of National Guards has been made on Unzue's land, close to Mr. Bell's elegant country-house. Some English families have also come in from Belgrano.

Montevideo promises to be very full this season, unless the troubles be all over in 15 days as so many people promise. Some of our English residents have already begun to move down there, and we heard of an old-established house temporarily closing on account of the passing troubles.

Some landlords in town are making concessions to their tenants, charging only half-rent until the State-of-siege be taken off. Several families have laid in stock of rice, flour, tinned meat, hams &c., but such precaution seems at least premature.

The number of foreign war steamers at present in port exceeds anything we remember for a long time. In 1859 during the siege and capitulation of B. Ayres we had nearly a dozen naval protectors, and we remember when the English marines and artillery occupied the Nat. Government House, (then the custom-house) and had their guns pointed towards Plaza 25 de Mayo; the French held the Bank in Calle San Martin, and used to drill every morning in Plaza Victoria; the American blue-jackets with some fine brass field-pieces held Paseo de Julio, and you would meet John and Jonathan armin-arm after a friendly 'tot,' vowing eternal amity and entente cordiale. The old allies of the Crimea also fraternized, and you saw the red-coated marines and Chasseurs in dark blue, trying to commune in a Malteso mixture of French, English and Italian and assuring their countrymen that B. Ayres was perfectly safe in their keeping. If you strolled up to Plaza Concepcion you found there a great barricade and several field pieces; another at the foot of the Recoleta hill, with earthworks on Mr. Armstrong's quinta; another at the Convalecencia with bastions; a battery in the south-west corner of the Recoleta, over the graves of departed citizens; at that time the cattle for the markets were killed in the Plaza Retiro. We had no milk at breakfast in those days, and beef was an article of luxury.

Pres. Sariniento visited the widow of the poor Italian shot by accident in front of his house, and gave her $15,000 mje.

The Nat. Government has awarded $f. 500 to the wife of Colonel Ramirez, who is detained prisoner on board the Mitrista gunboat Parana.

The *Tribuna* says that Gen. Mitre was strongly opposed to the revolution, which in a manner took him by surprise, obliging him to escape hurriedly on Wednesday night.

Colonel Juan B. Horne, formerly of the Marine, is said to have offered his services to the Nat. Government.

Governor Barros seems to have learned that General Rivas was at Tapalquen with his forces on the 21st Sept., two days before the revolution in Buenos Ayres. The Mitristas are supposed to be joining him, and the *Tribuna* thinks that his expedition to Salinas Grandes was merely for the purpose of getting together horses, men and supplies.

Colonel. Plaza Montero has appointed Majors Bonorino and Baez to command under him in the Burzaco division, said to number nearly 200 men.

A gentleman named Montes Ruiz has presented his two little boys to Government for the campaign, one aged 12, the other 14.

BOLIVIAN CORRESPONDENT.

Sucre, Aug. 22nd 1874.

My dear STANDARD,

I just write you a line to tell you that on Thursday last the legality of Dr. Frias's election to the Presidency was discussed by the members of congress, and that a large majority decided in favour of the act, the only dissentient voices being about a dozen of Corral's circle. The latter gentleman did not put in an appearance here, although a deputy. I believe he could not legally take the oaths, as, when he was minister during Morales's reign, he never rendered any account of the moneys entrusted to him and is therefore declared a debtor to the State.

A loan in England has been obtained for the construction of a railroad from La Paz to the Valley of Yungas, subject always to the approval of two civil engineers who are to report on the practicability of the undertaking; these gentlemen are by this time in La Paz in company with Mr. Larris, a Government engineer, who is the promoter of the scheme; this railroad will if made be undoubtedly a great benefit to the country, as it will open up one of the most fertile tracts in Bolivia, where, as perhaps you have heard, the best of coffee is grown. I am at present, I am sorry to say, not in possession of any of the article, or I would send the STANDARD a sample. However, when Captain Cilley, U.S.N, gets his answer regarding the Grand Oriental Bolivian Railway, for which he hopes to get the concession from Congress, I will manage to send you some by him.

The Government expedition, who are trying to get eastward from Sucos to Paraguay, are already in difficulties. They find a great scarcity of Indians to assist in opening the road and carrying loads. They have also arrived at a sandy desert destitute of water or vegetation, the breadth of which is, according to different persons, ten, twenty or thirty leagues. The old Jesuit map has a tract of desert marked as the Arenales, extending some fourteen leagues, which may answer to this 'travesia,' but there is not much reliance to be placed in the Jesuit discoveries in those parts.

I see by the last STANDARD that the Argentines have got two gunboats out and are expecting two ironclads. I congratulate them on the addition to their navy.

The question of limits between Chile and Bolivia is at last finally settled, Mr Walker Martinez, the Chilian Minister, having been empowered by his Government to renounce all claims to 'Caracoles,' and if the Bolivian Government agreed, which they were only too glad to do, to fix the boundary at the 24th parallel of latitude; this is a very sensible and civilized way of settling these terrible boundary disputes which sever and trouble all frindly relations between S. American republics. The question of limits between Brazil and Bolivia is also settled. Señor Dencar, who must be a man of the right sort, as he takes in the STANDARD (there's a clap for you, as our American cousins say) is at present here and has settled the business satisfactorily (between you and me, better for Brazil than Bolivia.) I would write more only that a friend of mine is ill, and I have been up all night, so am not in a humour to write much, and you must excuse mistakes and bad wording.

If you hear anything of a gentleman named Llega, who was to have come here in our trap with my wife and father-in-law from Buenos Ayres, please give me news. He ought to have passed B. Ayres four months ago and intended to follow us 'via' Salta and Jujuy. I am almost inclined to think that as murders and assasinations appear to be frequent in the camp, he may have come to grief.

Your's truly
Anglo.

PARIS GOSSIP.

(*From our own Correspondent.*)

Alexander Dumas has got into hot water. It is very difficult to know what are his ideas on woman, whether she be good or bad. He has represented her under every form. A distinguished lady, and a foreigner, had going through the press a volume of appeal to woman; the work was anonymous. A friend suggested that the subject was one which would have an immense circulation were it introduced by a letter or a preface from Dumas, provided with the 'hall mark' in a word. The proofs were sent to Dumas, who returned them with a letter, the strangest a sane man ever wrote, and meant not for the eyes of a lady with whom he was not even acquainted, but to astonish the natives. The letter, like his dramas on adultery, solves nothing, and in addition is beyond all comprehension. It makes the judicious grieve. It is a diatribe not very far removed from blasphemy, and that pains all Christians. Not only does Dumas hold that woman is the cause of man's fall, but that it is she who still holds him back from attaining his divine end, whatever all this may mean. In presence not so much of public disgust as of public contempt, Dumas now pretends that his miserable letter was not intended for publication, and has had the edition seized and the papers of the authoress rummaged by the police. The lady has taken a counter action against Dumas—who does not cut a very respectable figure in the affair. Men aged 45 and enjoying a certain notoriety cannot be unheedful about what they write, especially when unknown to their correspondent. Dumas has tried politics and failed. He has now essayed to raise the laugh against what Christianity respects, and has justly sunk very low. He has made a great mistake in quitting his 'cocottes.'

The Jardin 'Acclimatation, the most agreeable of out door places of amusement, and of instruction in Paris, has secured two successes; in a young elephant called Toby (for the animals, like the 'nom de plume' of well-known writers on the press of Paris, take English names) and some infant ourang-outangs. The first by adoption is already an 'enfant de la patrie,' and his 'jour de gloire' will arrive when he can carry half a dozen babies and their nurses on his back round the garden. The addition to the 'man and brother' stock is suggestive of melancholy reflections; the female ourang is dying of consumption, and does the coughing and silent languishing business before admiring spectators in a manner worthy of any Marguerite Gauthier, or any other Dame aux Camelias. Her little brother is in short clothes, and is for her rather a silent friend; he plays nearly altogether with his trapezes. French sentiment has converted their rugs into a nursery, by strewing them with rattles, dolls, balls and other toys. The effect would be irresistibly Darwinian, were the interesting invalid placed in a 'berceau,' with a night-table containing a few bottles of medicine, an empty glass, a spoon, and a pill box.

Citizens apparently have made up their minds that they have only been born to be taxed. It is thus they grumble on the tax being collected 'nolens volens' for sweeping before their doors by the scavengers, instead of leaving the matter to the proprietor or the tenant of the shop or basement story. Some way or other whatever way the landlords may be taxed they manage to shift its payment to the shoulders of the tenant. Poultry is henceforth to be taxed, not by an 'ad valorem' duty, fixed by the seller as at present, but on the actual amount of the sales in the Central Market. This will be a clear gain of half a million of francs for the Municipality, which has been hitherto flowing into the pockets of the wholesale poulterers.

The French aristocracy—that is, the real old nobility—mustered strong on Sunday last at the military review, and the dominating character of their toilettes was simplicity and good taste, a harmonious relation between the robe, its style, and its cut. The ladies were dressed, not costumed. The 'paniers' of Louis XV, the 'retrousis' of Marie Antoinette, the Trianon 'falbalas,' were relegated to the museums of antiquities. The robes of to-day have abdicated their historical pretensions, and gracefulness benefits by the change. The hats or bonnets vary as much as the heads; they are everything one wishes, save those that come within the catagory of saucepans turned upside down and trimmed with feathers—of tobacco-pots crowned with flowers, and soup-plates armed with aigrettes. It seems it is the 'batterie de cuisine' that serves for the models of

some ladies' hats. 'Show me your *coiffure* and I will tell you what you are,' seems to be very true just now, for the veritable 'élégantes' the Princess de Metternich, the Countesses de Moltke and Portales, never display these outlandish fashions.

It appears to be the rule in the Faubourg St. Germain to never give with the daughters of the nobility a fortune greater than will produce an income of 20 to 25 thousand francs. The capital is secured for the coming family, and it is considered prudent to never encourage a young couple to commence with a large or ostentatious establishment. The aristocracy in this quarter display a time-honoured ceremony at the wedding Mass; while in other circles an ordinary visiting toilette is the mode, the ladies of the old Faubourg wear a white bonnet, with feathers or aigrettes, luxurious training robes, and costly lace mantles, mostly white; for ear-rings, only diamonds.

A nut for Cremationists to crack; Moreau of St. Denis who poisoned his two wives, disposed of the first nearly two years ago, the doctors certifying she died a natural death. Her remains have been just exhumed, and were found nearly petrified with mineral poison. Ought one's ashes to be analysed?

Lady, whose coachman has fallen from his box, struck with apoplexy: 'Oh! dear me, what is the world coming to, when even the servants commence to die like their masters.'

A marchioness having returned to her country seat, the clergyman delivered one of his best sermons before her. She soon fell asleep, and on wakening inquired, 'was it still Sunday or Sunday week?'

"Photographs for Pretenders, at a great reduction if taken in immense quantities,' are advertised.

EDITOR'S TABLE.

There was no change in the Situation yesterday morning. The streets of the city, however, wore a decidedly more cheerful aspect; there were more people moving about; paviours were at work, cartmen were also more plentiful, the 'changadores' returned to their 'corners,' on the look out for jobs, and best of all men were to be seen at work on the City Improvements, as it was known the Government had decided to withraw the decree suspending them. This is a move in the right direction, as restoring the means of subsistence to a large number of labourers. Mr. Carvalho had an early telegram from the Mount announcing the arrival there of the Argentine squadron on the look out for the Parana. Some of the foreign gunboats here intend to go out to see the expected naval duel between the Uruguay and Parana. When we welcomed their arrival here so recently no one could have imagined that their first trial of strength would be against each other.

Our picturesque American friend Mr. Spear has favoured us with a copy of the *Spencer Sun*, a well edited Massachusetts colleague. We find in it the following paragraph in reference to our humble selves and defunct colleague. The *Sun* has forgetten that there is a wide difference between pats and mic:—"We are under obligations to C. H. Spear, Esq., of Buenos Ayres, South America, for late issues of the weekly STANDARD and weekly *News*, both published in Buenos Ayres. Our readers no doubt will be greatly surprised when we inform them that the subscription price for these journals is $20 per month or $240 per year! Think of that, $5 an issue for a journal not as large as the *Sun*. The inhabitants of Buenos Ayres must make money fast, and plenty of it, in order to pay such subscription rates."

A Southern estanciero now in town received a letter from that quarter yesterday, announcing that everything was quiet down there. The *Pueblo* of Mercedes says that General Rivas is still at Blanca Grande. The *Tribuna* of yesterday refers to a proclamation by this General.

Drumming and drilling are now the order of both day and night in the city. Every evening, at the Retiro, we see a battalion of Nationals being drilled. On Wednesday evening we stumbled against our magazine friend "dear Daws" in full regimentals, looking tip-top, though he had just come off 24 hours duty. We also saw our Custom House friend Mr. MacClean and several other subscribers on parade, all doing their best to master the intricacies of drill. A battalion of National Guards left town on Wednesday by the Western Railway, we believe for Moron.

We call attention to a letter from the Very Rev. Canon Dillon in another column. The distress at present amongst his humbler parishioners is very severe indeed, and we trust his appeal to the wealthy and charitable will not be in vain.

Our absent friend, Stand-by O'Gorman, re-appeared on the telegraphic scene yesterday. His news was asphyxiating, and announced the most shocking 'let in' ever heard of on any Bolsa—6,000 forged Fomentos in the liqffidation, and a well known party suspected of the 'do.' This horrid 'sell' will, it is said, ruin many innocent parties. Verily the times are terribly out of joint on both sides of the Plate. The presence of the Argentine squadron at Montevideo has created a mild sensation there amongst people with nothing to do.

The employés of the Policia intend presenting their ex-Chief, Don Enrique O'Gorman, with a gold medal, as a mark of their esteem on his retiring from his high post. We have always maintained that Buenos Ayres never had a more zealous Chief of Police than Mr. O'Gorman; he did wonders with the poor elements at his command.

The Government has now an immense number of horses ready in and around the city. Dry 'pasto' has risen terrifically in price; last week it was $700 m|c. per ton, now $1,500 m|c. Happy those who have hay on hands.

That green grass should produce yellow butter is an anomaly in nature, yet its truth cannot be cowed down.

The statement that the Italian Consul had surrendered all his 'papeleta' fees to charity is contradicted. He could not do so, as the fees of the Consulate belong to his Government. What he has done, with the approbation of his Minister, is, issuing protection papers gratis to those of his countrymen who are too poor to pay for them.

Advices from San Nicolas state that shearing will begin about there in a few days. There are a great many people out of work, and the 'esquila' will be a boon to them.

Rosario is in a military fever as well as Buenos Ayres. All the offices deserted, and every man in the town following the drum. Colonel Carnicero (fire eating name) is 'Gefe del dia', all the horses taken up by Government, and great enthusiasm prevailing. Meat is rising to an awful price; butchers 'skinning' the population. Our colleague *La Capital* announces that it got over 50 new subscribers this week. We are sorry to say that the STANDARD did not get half as many; we consider one or two new subscribers per diem a very good business. Our colleague says that Colonel Roca has 2,000 men, between Liners and National Guards. The man who bet that he would ride from Rosario to San Lorenzo in an hour on a single horse accomplished the distance on Sunday last in 44 minutes. An Englishman has now come forward betting he will ride the same road and back in 90 minutes.

On Wednesday last, Sept. 30th, the first quarterly 'examens' of the Normal School took place in presence of the commissioners, the director, Sr. A. Van Gelderen, and the professors of the College. We are happy to state that they were entirely satisfactory, many of the pupils showing great readiness and ability in their various answers. It may not be amiss to mention here that this college, which is of very recent date, was founded by Don A. Alcorta, who succeeded Dr. E. Basabilbaso, present Minister of Finance, as president of the establishment. These gentlemen, as well as the commissioners, Drs. Javalia, Aguilar, Irigoyen, and Sr. Berraondo, have done all in their power to enable the talented director, Sr. Van Gelderen, to carry out his enlightened system of education. We need scarcely remark that under such able rulers the school has made rapid progress since its establishment, in July last. It already counts over seventy scholars, several of whom are going through a regular course of studies to enable them to become competent teachers for the different schools of the Republic; in fact, for this object the college was founded. Such students as bind themselves, after receiving their diploma, to teach in one of the Government schools for the term of four years, not only are educated gratis, but receive a monthly gratuity, even while studying, of $350 m|c. The college is situated at the corner of Calles Balcarce and Potosi, and no expense or trouble has been spared to make it one of the finest establishments for the education of youth in this city.

Our Italian contemporary the *Operario*, so ably directed by our friend Mr. Cittadini, published an important bulletin yesterday, announcing that the Government had granted the request of Signor Lanciarez, Italian Charge d'Affaires, and re-opened the city Improvement Works. The Italian community has responded nobly to the call for aid for their necessitous countrymen; an Aid Committee has been formed, and food will be distributed daily to the needy at the Immigration office. President Sarmiento has generously given 600 patacons to the widow of the poor Italian shot by a sentry on the 28th, while running in search of a doctor; the widow will retain 100 patacons, and the remaining 500 has been lodged in the Provincial Bank for the benefit of her children. The Italian steamer South America is hourly expected with 700 emigrants on board.

One of our leading produce brokers called on us yesterday to beg we would call the attention of Government to the very serious consequences that will arise through the goods trains on the railways being stopped. Heaps of produce are lying at the stations outside, but cannot be sent in, and parties in town who endeavored yesterday to send out supplies of flour and other necessaries to the camp were equally refused. This is a most serious matter, and we call the attention of Mr Cambaceres, the new Director-General of Railways, to it. No doubt the military exigencies of the hour have a pressing claim on Government attention, but the question of supplies for city and camp must be considered as of the first moment. The Commissariat is by far the most essential arm of all in war, at least so said Arthur, Duke of Wellington, a pretty high authority.

The *Anales de Agricultura* of the 1st is a good number. We commend the short-horned Durham in the frontispiece to the attention and admiration of cattle-breeders.

His Excellency Mr Blest Gana gave a farewell dinner on Wednesday evening to his colleague Dr. Irigoyen, Peruvian Minister, who left yesterday for Montevideo and Peru, on leave of absence. Most of the foreign Ministers were present.

Messrs. Llavallol advertise that from this date they will pay the coupons on the E. Rios Debt.

Yesterday we had occasion to visit the Provincial Government House, which seems as if turned into a barrack. The Minister's ante-rooms were crowded with officers coming or going, widows trying to get exemptions for their sons, Consuls passing in or out for urgent matters concerning their countrymen. The Minister, Dr. Del Valle, was good enough to give us an order exempting one of our printers from active service, another piece of STANDARD luck under existing circumstances.

The Pampa yesterday took a good many of our weekly papers to Europe with all the latest news.

THE IRISH HOSPITAL.

To the Editors of the STANDARD.

Gentlemen,

I beg to thank most sincerely the B. A. Thespians for their generous donation ($7,454 m|c.) to the Irish Hospital. This institution, which is admirably managed by the Sisters of Mercy, has rendered, during the last year, the most signal assistance to Irish, English Scotch and Americans, Catholics and Protestants.

The Thespians deserve well of their countrymen; for, while providing them with rational amusement, they have not been unmindful of the poor and sick.

May God grant them that reward which is the sure fruit of the prayers of the widow, the orphan and the destitute.

On behalf of the many poor who daily crowd my house, I appeal to the charity of my fellow-countrymen—I appeal to their generosity to assist me in relieving the immediate wants of many families now out of employment.

The good Sisters of Mercy clothe and feed thirty orphan children. How they manage to do so is a mystery to me. I sincerely hope that some pious and charitable persons will assist the poor Sisters in this trying time, when everything is so dear.

Poor people who require medicine will be supplied *gratis* by applying to me.

I am, Gentlemen,
Yours sincerely,
Patrick Canon Dillon.

This was another dull day, although in exchange it was reported that bills on London were offered at 49½ pence, but the business was kept in great reserve.

Cedulas keep steady at 78¾ but without any animation; a few parties unable to obtain advances on bills have borrowed Cedulas, these are then sold and the required funds are thus to hand.

Discounts are most difficult, the stringency is as great as during the yellow fever crisis, in fact the commercial situation now is similar to that period.

The National Bank have made a slight alteration in their interest table; charging 12 per cent. for advances and allowing 8 per cent for fixed deposits and account current.

It was announced that Congress had voted twenty millions of patacons for expenses of war; the Provincial legislature it was said will also assist by voting a credit of two million patacones.

The Mercantile Bank have also made alterations in their rate allowing for fixed deposits of 6 months or more 7 per cent, while for 90 day deposit 6 per cent will be given.

The sales to-day were—

We call the attention of our Gas, Railway and Steam boat companies to the auction sale by Wehely Gimenez, of 439 tons of coal, at their offices to-morrow (Friday). It is the salvage of the Dumbartonshire and will probably sell cheap.

Ask for
LEA and PERRINS' SAUCE,

ORIENTAL Telegram Agency.

57—CALLE SAN MARTIN—57
(Opposite the Bolsa)

Names and Addresses, if registered through these Agencies, are counted and charged as ONE word only. No charge is made for this registration.
The charge for the first word also covers cost of transmission by Telegraph of the place from which the Message is sent, date, and time of despatch.
A special feature of these agencies consists in telegraphing the number of words in each despatch.
It will greatly facilitate business if the register number is placed upon Messages before being handed in for transmission.

Extracts from the Oriental Telegram Company's Rules.

Rule 3.—Implicit Secrecy is to be observed with regard to Messages, not only as to their content, but not information is to be given as to whether any person or firm has or has not sent a message.
Rule 4.—Complaints of error, delay, or of any other nature, should be made by the person forwarding the message. The Receiving Agent cannot give any information on the subject, and should be very careful not to speculate upon the causes of delays, &c.
Rule 9.—Every message must be signed by the sender.
Rule 10.—All messages are to be prepaid to their destination.
Rule 34.—In the event of doubt arising as to the correctness of a message, the Cable Company may be prevailed upon to repeat it; but the Rules of the Cable Company must be regarded in this matter, and the message cannot be rectified at the expense of the Oriental Agency.

The system adopted exclusively by these Companies insures a degree of accuracy in the transmission of telegrams acknowledged by the chief Cable Companies never to have been attained by any other agency.

NOTICE IS HEREBY GIVEN, that Messrs. Lamas and Co. are definitely installed by the Head Office, London, as Agents of the above Telegraphic Agency, in the River Plate.
Merchants, bankers and others are invited to register their names without delay. Registration gratis, after which the names and addresses of firms and their correspondents count as ONE word only.
The Registration Book is now opened, and we earnestly request those intending to register to come early, so that the lists may be ready for the first steamer.

Bristol's sarsaparilla

Is prepared in the most scientific manner, by thoroughly educated chemists and Druggists, who have had many years' experience. It is not a simple extract from one article, but is compounded of extracts from a number of Roots, Herbs Barks, and Leaves, all of which are possessed of some particular virtue or power in curing the diseases that have their source in the blood and humors; these different vegetable extracts are combined in such a way as to retain, in its full strength, the special curative virtue possessed by each. The root of the Sarsaparilla plants found in Honduras, is that which we use in this preparation; it is the kind which all medical men esteem most. About fifty per cent. of Bristol's Sarsaparilla consists of the concentrated extract, the remainder, as above stated being composed of extracts from other powerful, cleansing and healing vegetable substances. It does not contain any thing that is dagerous or injurious to health, and in this, as in nearly every other respect, is entirely different from all other preparations sold under the name of Sarsaparilla.
By having our own agents at the places where the various roots, drugs, herbs and plants, composing our medicines, are produced, we are enabled to exercise that constant care in selection which insures uniformity of excellence, and we spare no money and no effort to procure the best—and only the best—of every article entering into their composition; and it is with the most abiding confidence we say, to be sick of all nations and all countries, that, in Bristol's Sarsaparilla you have a remedy more reliable than any before offered to you, and which will not disappoint you in the cure of
Salt Rheum, Tetter, Scald Head,
Syphilis, or Venereal Disease,
Nervous and General Debility,
Old Sores, Ulcers, Tumors,
Abscesses, Boils, Eruptions
Scrofula or King's Evil,
Female Derangements,
White Swellings,
Fever and Ague,
Chills and Fever,
& Dumb Ague.
As a means of building up the constitution that has been broken down by the excessive use of Mercury, Iron, or other Minerals, our Sarsaparilla will be found most excellent, and can be administered with safety to the weakest patients. As a purifier of the blood and humors, in the Spring and early Summer, it will be found unfailing. It can be taken freely at seasons, rainy or dry. For some of the above diseases, the use of the Sarsaparilla must be continued a considerable time, especially for those that are hereditary or constitutional in their nature—such as Scrofula: but a faithful compliance with the directions will always relieve and mitigate, and in a great majority of cases will effect a complete cure. It will also be found, in all of the above diseases, that a cure will be greatly hasted by using our Bristol's Sugar-coated Pills, in moderate doses, in connection with the Sarsaparilla; they carry off large quantities of morbific or diseased matter set free in the system by the Sarsaparilla, and in this way facilitate the return to healthful functional operations. —c— 46
